The WireXpert 4500 is the first cable certifier with capability to certify the highest performance cabling systems in enterprise networks and data centers.

Cable installers make significant gain in productivity with WireXpert's industry leading test speed and ease of use.

WireXpert 4500 sets new standards for cable certifiers:

- Latest digital measurement technology enables fastest auto-tests for cable certification with unparalleled accuracy.
- Testing up to 2,500 MHz now, WireXpert 4500 is designed to meet all present and emerging standards.
- Reduces the certification time by up to 70% due to extremely fast test and storage processes. Dual end control (local and remote unit are identical), allowing the instrument to be operated from either side of the link.
- The advanced touch sensitive LCD screen with the largest display of its class and digital interface allows the user to enter text for documentation purposes. Simple icons/apps offer an intuitive operation interface.
- The ability to save more than 6,000 test results gives WireXpert 4500 a competitive edge over any other cable certifier. Exporting test records into the PC-based analysis software is made simple by the automated navigation feature
